ABOUT THE EXHIBIT

National Sculpture Society was founded in New York City in 1893 by a group of America's most prominent sculptors. Its members have created much of this country's public sculpture, coins, and medals since the late 1800s. It is the oldest organization of professional sculptors in the United States, and has been hosting exhibitions for over a century.

Brookgreen Gardens was founded by Archer and Anna Hyatt Huntington in 1931 and, today, is a National Historic Landmark and a display garden with the most extensive collection of figurative sculpture in an outdoor setting by American artists in the world. In addition to the gardens, Brookgreen offers year-round courses and workshops to sculptors as well as programs and tours for visitors of all ages and interests.
